Please email us your practice logo and 2 professional practice photographs (1 x team shot and 1 x customer service) so that we can use them and customise the newsletter a little bit to showcase your practice. If you do not have these professional practice photographs, than we can discuss the opportunity to do some, with a professional photo shoot with The Photo Shop. We can offer the services of The Photo Shop, to take a small number of photographs. Alternatively we can use appropriate lifestyle graphics for this section, but not allow for any individual, personalised touches to the final newsletter file.
